LinkedIn: [Sivaharan Sangavan](#)

PROFILE

Final year B.Sc. IT undergraduate at Rajarata University of Sri Lanka with a strong foundation in software engineering, AI/ML, and mobile application development. Experienced in developing real-world projects including AR fitness applications, Android applications, and frontend web platforms. Proficient in full stack development (React, Node.js, Django) Seeking a Software Engineering Internship to apply technical skills in full-stack development, AI-powered systems, and problem-solving while contributing to innovative engineering projects.

TECHNICAL SKILLS

- Programming Languages:** Python, Java, C, C++, JavaScript, C#
- Frontend:** HTML, CSS, JavaScript, React
- Backend & Frameworks:** Node.js, Express.js, Django, REST APIs
- AI / ML:** scikit-learn, Pandas, MediaPipe, Random Forest, Pandas
- Tools & Platforms:** GitHub, VS Code, Android Studio, Unity3D, Jupyter Notebook
- Soft Skills:** Problem Solving, Teamwork, Critical Thinking, Time Management

PROJECTS

AI-Based Fitness App with Augmented Reality

- Developed a desktop application providing AI-driven workout recommendations and real-time AR posture detection.
- Implemented posture correction using MediaPipe and machine learning classification techniques.
- Highlighted incorrect body positions instantly using AR overlays for real-time visual feedback.
- Technologies: Python, MediaPipe, scikit-learn, Unity3D, AR, C#

Student Results Prediction System

- Built an ML-powered system to predict student academic outcomes based on performance data.
- Implemented predictive models to identify at-risk students and support early intervention.
- Technologies: Python, scikit-learn, Pandas, Jupyter Notebook

BookMyFlick – Movie Booking App

- Developed an Android movie booking application with seat selection and booking history.
- Applied object-oriented programming principles and design patterns for maintainability.
- Technologies: Java, Android Studio, OOP

Language Learning Website – Frontend

- Designed and developed a responsive frontend platform for a language learning service.
- Improved UI/UX and optimized cross-device usability.
- Technologies: HTML, CSS, JavaScript

EDUCATION

B.Sc. in Information Technology

Rajarata University of Sri Lanka | 2023 – Present(Final Year)

Relevant Coursework: Data Structures, Object-Oriented Programming, Software Engineering, Databases, AI/ML Fundamentals

CERTIFICATIONS

- Google AI Essentials — Coursera (2025)
- Create a Mockup in Figma — Coursera (2025)
- IEEE Xtreme 19.0 Competitive Programming — 2024
- IEEE Xtreme 18.0 Competitive Programming — 2023
